About DREaM 2018

Universitas Gadjah Mada proudly presents the 10th DREaM International Students Summer Program 2018, organized by the Office of International Affairs (OIA) with the continued support and contribution of students and staffs. DREaM 2018 will be held on July 18 – 31, 2018. Students are involved in various activities such as two days of public lectures, followed by three days of internship, one day of workshop action plan, four days of community service and cultural excursions around Yogyakarta. This year's theme is "Reinventing Education in the Era of Disruption", emphasizing on the importance of education and its existence in the present days which is heading towards a disruptive era. Through DREaM 2018, students from around the world can learn more about this issue and its actual implementation in the community. The younger generation may be initiators for the solution in reinventing education in the society and inspire others to make a better world for us and for our future generations, especially in the era of disruption. The program will see representatives from educators, policymakers, civil society, entrepreneurs and researchers involve in series of discussion and sharing ideas, opportunities and obstacles in the relationships between their respective spheres of influence.
