

SUMMER SCHOOL

Understanding Poland: Economy, Society and Science

Summer School at University of Lodz offers an exceptional academic experience for students from Japan. During this two weeks course students can learn about Polish history, economy, social and cultural issues as well as gain knowledge about Polish achievements in biology, ecohydrology and computer science. And that's not all - students will also experience beauty of Polish culture during field trip and sightseeing! Summer school consists of obligatory lectures for all participants and three selective modules.

OBLIGATORY MODULE

- Polish for beginners
- History of Poland and Lodz City
- Polish economy and society
- 100th anniversary of diplomatic relations between Poland and Japan (conducted in Japanese)

THREE SELECTIVE MODULES

- Insights into Polish economy, business and society
- Polish Science Achievements: Ecohydrology
- Computer Science

FIELD STUDY AND SIGHTSEEING

- Lodz City Museums and city attractions
- Pilica River Trip, Spala Forest
- Old Town in Warsaw
- Extra trip :)
