

Tohoku University Student Exchange Program-Outbound Application Guidelines AY2022 Second Recruitment

I. Overview

The University-wide Student Exchange Program is a program in which an undergraduate or graduate degree student (hereafter “student”) is given the educational opportunity to take courses or receive academic advice at a partner university for a semester to a year.

The exchange program participants will remain enrolled at Tohoku University (hereafter, TU) while they are enrolled at a partner university and take academic courses and/or conduct research activities. Students may transfer credits earned at a partner university to, or earn credits from, TU if certain requirements are satisfied. The approval of credit transfer requests is determined by each School.

During the study period, the tuition fee at the partner university will not be collected in most cases, but payment to TU of the tuition fee is required.

All applicants should be aware that due to the COVID-19 pandemic, Tohoku University may cancel the program depending on conditions at the destination country/region and the host university.

1. Partner Universities

Students can select their preferred universities for the exchange program from more than 253 partner universities, or from more than 73 universities for the University of Global Engineering Education Exchange.
